REPORT

OF THE

COMMISSIONER OF PUBLIC LANDS

OF THE

TERRITORY OF HAWAII

FOR THE

TWO YEARS ENDING JUNE 30, 1956

TERRITORY OF HAWAII

OFFICE OF THE COMMISSIONER
OF PUBLIC LANDS
HONOLULU

Honorable Samuel Wilder King
Governor of Hawaii
The Legislature of the Territory of Hawaii

Sirs:

This, the Twenty-third Biennial Report of the Office of the Commissioner of Public Lands, presents a brief review of the functions and accomplishments and recommendations of this office, the Bureau of Conveyances and Division of Hydrography for the twenty-four months period ending June 30, 1956.

Considerable progress has been made in the development and disposition of Public Lands for agricultural, business, residence and industrial uses in accordance with the policies of the administration. These policies have been aimed to relieve the scarcity of fee simple lands, for home sites, industrial and farming uses.

RE-EXAMINATION OF FOREST RESERVES:

A re-examination of our forest reserves should be made in order that more land may be made available for sale as house lots, farms and pastures. Areas of Government Lands in the forest reserves which serve no useful purpose either for the conservation of water or for the production of timber, should properly be withdrawn to serve the economic needs of the Territory. On the other hand, wherever it is desirable that additional areas be added to the forest reserve for the conservation of water a need vital to Hawaii, there should be no hesitation in setting aside such areas for that purpose.

DELINQUENT ACCOUNTS:

A concerted effort has been made by the staff of the Land office in cooperation with the Attorney General to reduce our delinquent accounts and as a result the General Leases and Special Sale Agreement balances which were in flagrant default have been reduced substantially.

COLLECTIONS AND DEPOSITS:

Collections received by this office from all sources for the two-year period covering July 1, 1954 to June 30, 1956 amounted to $5,508,201.12. *This represents an increase of* $1,407,552.65 *over the collections for the period covered by the previous report.*

MINERAL RIGHTS:

In recent years large mining companies have been conducting explorations for minerals on Public Lands and private lands in the Territory. The preliminary investigations have indicated that mining of bauxite or aluminous clay, from which alumina may be produced, on a commercial scale may be possible here in the Islands. Some interest also has been indicated in titanium. If successful, the impact on our local economy may be considerable, involving increases in employment and construction. In addition, the Territory will gain increased revenues from taxation, royalties and the sale of mineral leases and mineral rights. On the other hand a reckless method of strip mining might destroy forever water and agricultural resources that are of absolutely first importance to Hawaii.

The legal and administrative problems arising as to the minerals present on Public Lands and the minerals present on private lands reserved to the Territory are numerous and difficult.

The forthcoming Legislature should provide for Territorial mining laws which will aid in the development and regulation of mineral resources here in the Islands. Since strip mining is the common method by which bauxite ore is extracted, the watersheds, forests, soil and the water supply of the areas mined will be vitally affected. The Land Office and the Legislature will be much concerned about these resources. Intensive studies are now being made with the cooperation of various governmental agencies both Territorial and Federal, as to the best way by which the potentialities of the mineral wealth of the islands may be realized for the benefit of the Territory without destroying other vital natural resources in the process. I regard the protection of the water and arable soil of the Territory of overriding importance, and feel that it would be a short-sighted and dangerous course to open our lands for mining exploitation without complete assurance of the result.

SALE OF SAND ISLAND OIL REFINERY:

Pursuant to proper application by Standard Oil Company of California, and having been advised that the land would be released by the Army for no other purpose, the Land Board of the Territory of Hawaii after much study, approved the sale of two (2) parcels of land, totalling 111.00 acres, together with certain easements, located on Sand Island. By the terms of the approval, the Purchaser will be required to construct an oil refinery and appurtenances to cost not less than $25,000,000.00 within two (2) years after the delivery of the Patent and to use said lands for oil refining purposes only. The restriction in use for oil refinery purposes would continue for a period of twenty-five (25) years after the issuance of the Land Patent.

The Commissioner of Public Lands requested the zoning of

the affected lands for noxious industry purposes. After much publicized hearings, the City Planning Commission approved such request and the Board of Supervisors confirmed such approval.

In anticipation of the approval by the President of the United States of America of the proposed Executive Order returning the affected and adjoining lands to the Territory of Hawaii, a Notice of Sale advertising the sale of the lands for an upset price of $3,184,799.60 *was published. The sale was cancelled, however, when word was received that the Attorney General of the United States had concluded that Congressional action was necessary to release the lands to the Territory.*

The Territorial Legislature, anticipating the sale of the lands on Sand Island, by Act 273 of the 1953 Session Laws appropriated the proceeds of the sale for the construction of needed improvements at the University of Hawaii. This, however, cannot be realized until Congress returns Sand Island to the jurisdiction of the Territory.

INDUSTRIAL LANDS:

To encourage new industries, this office has endeavored to make available Public Lands for industrial use either through lease or by sale. As a result, 5.178 acres of industrial lands at Kalihi, Honolulu, Oahu, were sold in fee simple to Foremost Dairies and Gaspro, Limited, for $400,000.00. *More than 21.60 acres were sold on all islands for business and industrial purposes and* $915,930.26 *were realized from such sales. More than 7.41 acres of land in Kalihi, Honolulu, Oahu, were leased for industrial sites.*

HOUSE LOTS:

Recognizing the increased demand for land for residential developments, residential subdivisions at Waimanalo to provide house lots at reasonable prices are planned. In the sale of these lots, certain restrictions should be included to prevent land speculation. The lack of an adequate water system is the greatest deterrent to the fulfillment of this project. In order that this project to make more much needed house lots available be completed, immediate steps should be taken by the Territory to provide an adequate source of domestic water supply for Waimanalo.

DIAMOND HEAD VIEW LOTS:

A residential subdivision at Diamond Head, Oahu, is well under way. This subdivision will be called the "Diamond Head View Lots" and will cover approximately 42 acres of Public Lands. This subdivision will provide 135 house lots, each lot to be approximately 10,000 square feet in area. Immense interest has been exhibited in these lots by prospective purchasers. The Territory may expect to realize $1,500,000.00 *from their sale.*

FARMING AND HOMESTEADING:

Agricultural lands in our urban communities are rapidly being converted to residential and industrial uses. These conversions, although benefiting the Territory economically, have created a serious farm relocation problem. To counteract these conversions, a vigorous land program has been conducted for developing and opening up more farm lands on Oahu, Kauai and Hawaii. As a result, Public Lands at Kapahi, Kauai, at Waimanalo, Oahu, at Lalamilo, Hawaii, and at Panaewa, Hawaii, are being surveyed and developed for farming. The lands at Panaewa will constitute the second homestead subdivision put upon the market by this administration. It is contemplated also that a substantial portion in that area will be opened for three acre house lots in which great interest has been expressed by the residents of Hilo and adjacent regions. These tracts will be disposed of under the provisions of our homestead laws. Another project in the land program is a current study for the development of 450 acres of homestead and farm lands at Wailua, Kauai.

The exchange with Parker Ranch (Mr. Richard Smart) for the Lalamilo lands was finally consummated, the Territory securing a better bargain than had been anticipated by the Legislature. Immediately thereafter, a survey of homesteading possibilities was made and a most admirable report filed by Dean Wadsworth whose advice had been sought. In consequence, the initial steps toward surveying and classifying the land have been taken, but there is a great deal of work to be done, and much expense will necessarily be incurred before the homesteader can hope to be on their own land. In that connection, I felt obliged to make clear to the Water Board of the County of Hawaii that none of the government owned waters in the Waimea area would be diverted to Kona until all needs, both present and prospective of the Waimea farmers and residents had been met.

LAWS:

During this biennium, Congress has approved many land bills which have greatly aided my office in the development, management and disposition of Public Lands. These bills have given the Land Office much more freedom in its operation, but because of this greater latitude, the work burden of my office has been increased substantially.

GENERAL SALES:

During this biennium, the Territory's land-opening program has resulted in sales of more than $3,074,000.00. *In all, 1,853.99 acres were sold. In acreage, most of the land sold went for homestead farm lots. Oahu sales resulted in the largest income, although the most acreage sold was on the island of Hawaii. Below is a break-down of the sales and leases of all islands:*

FEE SIMPLE SALE AND GOVERNMENT LEASES

ALL ISLANDS: SALE OF PUBLIC LANDS	No. of Sales	Area	Consideration
HOUSE LOTS:

CONCLUSION:

It will be evident by the statistics shown in this report that the Office of the Commissioner of Public Lands has done its best to implement the policy of the administration in the development, management and disposition of Public Lands. This has not been the work of any one person; I acknowledge with appreciation the hard work of the Land Office on all the islands and the generous contribution of the members of the Board of Public Lands who gave so much of their time to the Board's affairs.

Respectfully submitted,

Marguerite K. Ashford

Marguerite K. Ashford
Commissioner of Public Lands

SUMMARY OF HOUSE AND BUSINESS LOTS SUBDIVISIONS

The following table is a brief summary of our proposed business, residence and farm lot subdivisions that are either in the planning or development stages.

	Total Area	No. of Lots	Tax Map Key
OAHU:			
Old Manoa School	97,721 Sf.	9 houselots (7500 Sf. lots)	2-9-21-12
Puu-O-Hulu House Lots	9 Ac.	28 houselots (25,000 Sf. lots)	8-7-06 par. 6
Kuliouou Beach Lots (possible future fill—10 lots; 10,000 sq. ft. area)	31,794 Sf.	3 lots	3-8-03-51
Kalihi Quarry House Lots	2.94 Ac.	14 lots	1-3-27 par. 1 and 47 1-3-35 par. 56
Diamond Head View Lots	42 Ac.	130 houselots	3-1-42-6
Fort Ruger House Lots	30,696 Sf.	3 houselots	
3-1-44-12 13,905 sq. ft. 3-1-44-13 7,800 sq. ft. 3-1-44-33 8,991 sq. ft.			
Schofield House Lots	5.118 Ac.	25 houselots	7-3-13
Kaimuki Fire Station	95,362 Sf.	9 lots	3-2-36-1
Wailupe Beach Lots	1.056 Ac.	Not returned to T. H. from Fed. Govt.	
Sand Island Industrial Lots	142 Ac.	Possibly 130 industrial lots	1-4-41 portion Par. 1
Kaneohe Court House Site	12,750 Sf.	1 lot	4-5-17-2
Waialee House Lots and Farm Lots	65.407 Ac.		5-8-01
Piliamoo House Lots	66,312 Sf.	7 lots	2-8-26 parcels 15 & 26
Waiahole House or Farm Lots	13.302 Ac.	4 lots	
Waiahole House or Farm Lots	99.463 Ac.	(3 Ac. lots) 22 lots (3 Ac. lots)	4-8-1-5
Moanalua House Lots, Kalauao	3.795 Ac.	16 houselots	9-8-11-19
Kaaawa Government House Lots	3.67 Ac.	13 houselots	5-1-14-47

SUMMARY OF HOUSE AND BUSINESS LOTS SUBDIVISIONS

	Total Area	No. of Lots	Tax Map Key
Old Waianae Reservoir Site at Lualualei	70 Ac.	15 five Ac. lots

Report of
BUREAU OF CONVEYANCES

Honorable Marguerite K. Ashford
Commissioner of Public Lands
Territory of Hawaii
Honolulu, Hawaii

Dear Madam:

We submit herewith report of Receipts and Disbursements of the Bureau of Conveyances, along with other statistical information for comparison purposes.

STATEMENT OF RECEIPTS AND DISBURSEMENTS FOR THE LAST TEN YEARS

Fiscal Year Ending June 30th	Receipts	Disbursements
1947	$ 112,466.10	$ 123,742.75
1948	137,940.80	133,129.70
1949	137,419.60	144,282.59
1950	152,865.65	162,491.15
1951	167,085.95	159,904.71
1952	165,230.20	165,261.81
1953	145,019.10	154,773.68
1954	174,485.72	175,893.36
1955	190,669.60	171,029.33
1956	198,941.60	180,725.80
TOTALS	$ 1,582,124.32	$ 1,571,234.88

SEGREGATION OF RECEIPTS BETWEEN REGULAR AND LAND COURT SYSTEMS

Fiscal Year Ending June 30th	Regular System	Land Court System	Total Receipts
1947	$ 79,939.65	$ 32,526.45	$ 112,466.10
1948	100,989.00	36,951.80	137,940.80
1949	101,237.35	36,182.25	137,419.60
1950	118,292.50	34,573.15	152,865.65
1951	124,170.15	42,915.80	167,085.95
1952	124,382.55	40,847.65	165,230.20
1953	106,941.30	38,077.80	145,019.10
1954	126,627.00	47,858.72	174,485.72
1955	141,501.65	49,167.95	190,669.60
1956	145,984.90	52,956.70	198,941.60
TOTALS	$ 1,170,066.05	$ 412,058.27	$ 1,582,124.30

SEGREGATION OF DISBURSEMENTS BETWEEN REGULAR AND LAND COURT SYSTEMS

Fiscal Year Ending June 30th	Regular System	Land Court System	Total Disbursements
1946	$ 69,656.82	$ 34,882.00	$ 104,538.82
1947	85,174.35	38,568.40	123,742.75
1948	85,564.22	47,565.48	133,129.70
1949	100,317.34	43,965.25	144,282.59
1950	110,801.86	51,689.29	162,491.15
1951	100,637.23	59,267.48	159,904.71
1952	103,481.02	61,780.79	165,261.81
1953	101,286.31	53,487.37	154,773.68
1954	107,135.64	68,757.72	175,893.36
1955	103,759.68	76,966.12	180,725.80
TOTALS	$ 967,814.47	$ 536,929.90	$ 1,504,744.37

NUMBER OF DOCUMENTS RECORDED AND FILED

Calendar Year	Regular System	Land Court System	Total
1946	24,972	7,293	32,265
1947	18,635	8,504	27,139
1948	20,470	9,305	29,775
1949	22,640	8,739	31,379
1950	21,341	9,970	31,311
1951	22,247	11,227	33,474
1952	22,469	11,285	33,754
1953	24,502	11,316	35,818
1954	24,677	13,416	38,093
1955	24,798	14,040	38,838

NUMBER OF LAND COURT CERTIFICATES OF TITLE ISSUED

Calendar Year	Total
1946	2,941
1947	2,774
1948	2,992
1949	2,297
1950	2,934
1951	3,202
1952	2,884
1953	2,927
1954	2,809
1955	3,814

The bureau records many documents annually on a gratis basis, submitted by various territorial and municipal government agencies, in addition to making many checks of bureau records for the Attorney General's Department relating to original applications to register land.

The following statistics reveal the increased activity in territorial land conveyancing and the constantly increasing bureau revenues.

Calendar Year	Number of Deeds Filed and Recorded	Approx. Value of Land Conveyed	Total Filing and Recording Fees Received
1935	3,194	$ 6,217,540.00	$ 48,529.80
1936	4,328	10,916,055.00	62,965.90
1937	5,358	12,125,405.00	67,872.85
1938	5,169	11,000,270.00	71,147.90
1939	5,310	11,864,700.00	72,559.40
1940	5,753	14,017,700.00	79,832.70
1941	6,603	17,256,500.00	81,155.10
1942	4,156	14,885,500.00	55,392.50
1943	5,542	26,763,200.00	68,950.30
1944	6,103	35,141,000.00	76,319.35
1945	6,392	40,729,000.00	77,992.20
1946	7,832	59,201,800.00	109,642.80
1947	7,648	50,751,000.00	126,166.90
1948	8,212	52,577,500.00	144,305.90
1949	7,120	34,091,000.00	145,195.00
1950	8,215	45,125,000.00	154,846.45
1951	9,032	44,706,500.00	162,896.15
1952	7,709	44,732,000.00	158,252.15
1953	7,942	45,970,500.00	158,792.80
1954	7,770	47,737,000.00	181,491.70
1955	9,127	61,802,000.00	199,708.25

Land transactions in the Territory of Hawaii are recorded or filed in this bureau and the revenues received from such are most gratifying. There is only a small difference between revenues and expenditures, making the bureau practically self sustaining.

Due to the increase in volume of documents coming into the bureau, a number of changes have been made throughout the office.

One of the changes is the shuffling of our employees to various positions, the purpose of which is to familiarize themselves with the work, function and routine of the position.

The revenue structure in this bureau are set forth in Sections 12,728, 12,705 and 12,794, Revised Laws of Hawaii 1945, as amended by Acts 241, 157, 56, and 112 Session Laws of Hawaii 1945, 1947, 1949, and 1951 respectively. Based on the present fees and on the tentative increase in recording and filing fees and the issuance of original certificates of title, we are going to the Legislature to amend the above Sections. We propose the following:

$10.00 for the original certificates of title instead of $5.00.

$5.00 for issuance of second duplicate certificate of title instead of $2.00.

$2.00 per page for a schedule attached and made a part of any document.

These and other changes in fees will give us an estimated $20,000.00 more in revenues.

Respectfully yours,

BUREAU OF CONVEYANCES

OLIVER R. AIU
Registrar of Conveyances

REPORT
of
THE DIVISION OF HYDROGRAPHY

The Division of Hydrography is responsible for the collection, compilation and interpretation of basic information relating to both the surface and the underground water supply of the Territory. This work is accomplished with cooperation of the Surface Water Branch and the Ground Water Branch of the U. S. Geological Survey, with other governmental agencies and with private parties and corporations. It is financed chiefly by Territorial appropriations which are matched approximately on a dollar for dollar basis by the U. S. Geological Survey. Some additional support is received from local cooperative parties in financial contributions and/or assistance in the form of labor, materials or transportation.

Securing records of flow of streams and ditches and of rainfall and the computation and analysis of such records toward the evaluation of the surface water supply of the Territory, the recording of artesian heads and salinity, the administration of Territorial laws relating to the conservation of artesian waters and the publication of the Geological Survey annual Water Supply Papers fall within the responsibilities of the Surface Water Branch office and under the direction of the District Engineer. The study of the general geology of the Territory, the preparation of geologic maps and reports describing and indicating the location, particularly, of structures favorable or unfavorable to the occurrence of underground water, and the keeping and publishing of such records needed in the evaluation of ground water sources, fall within the responsibilities of the Geological Survey Ground Water office directed by the District Geologist.

The routine work in surface-water investigations during the biennium is approximately summarized by the following tables:

SUMMARY OF SURFACE-WATER INVESTIGATIONS

	Kauai	Oahu	Maui	Hawaii	Molokai	TOTAL
Number of regular streamflow measuring stations:						
Maintained on July 1, 1954	35	36	44	11	10	136
Established during period July 1, 1954, to June 30, 1956	0	1	0	2	1	4
Discontinued during period	3	0	0	0	0	3
Total number operated during period	32	37	44	13	11	137
Number of regular rain gauges maintained	12	4	2	3	3	24
Measurements:						
Made at regular stations during period	280	401	351	109*	104	1,245
Made at miscellaneous points during period	19	126	0	25	23	193
Number of months continuous streamflow record obtained during period	792	876	1,008	271	241	3,188

WORK ACCOMPLISHED OR SUPERVISED TOWARD CONSERVATION OF ARTESIAN WATERS

Number of new wells inspected, logged, located	66
Number of old wells sealed	9

Number of old wells re-cased	2
Number of head readings recorded	800
Number of chloride determinations	1,390

Considerable progress has been made during the biennium in the computation, analysis and publication of data. The backlog of uncomputed and unpublished data has been materially reduced while at the same time current records have been improved both in accuracy and application to problems presented by the Territory's rapid growth. This is especially true in the determination of flood flows on Oahu.

Limited funds prohibited operations at the hydraulics laboratory except for the modeling of four stations for which high-water ratings were urgently needed.

Within the program of ground-water investigations during the biennium: (1) The manuscripts on the geology, structure and petrography of Kauai were completed and a contract for the printing of the geologic map of the island was awarded. (Review of the manuscript by the Washington office of the Geological Survey and contracting for printing of "Division of Hydrography Bulletin 13," *Geology and Ground-Water Resources of Kauai,* will be accomplished early in fiscal year 1956-57.) (2) Study of the ground-water hydrology of the Honolulu area continued. This is a long-term investigation of ground-water levels, geochemistry of ground water, pumpage, natural leakage and rainfall. (3) Work continued on the compilation and plotting of hydrologic data on large scale maps toward producing ground-water maps of the individual islands showing the occurrence, quantity and quality of the ground water.

The Division satisfactorily supplied data and information in answer to about 400 requests during the biennium. These requests involved rainfall, streamflow, flood flows, artesian well operation and maintenance and geology and ground water, and were in addition to the services regularly rendered to cooperating agencies.

A cooperative agreement was successfully negotiated between the Division of Hydrography, the City and County of Honolulu and the Economic Planning and Coordination Authority on one hand, the Division of Hydrography and the U. S. Geological Survey Ground Water Branch on the other, to provide for a comprehensive investigation of the Water Resources of the Pearl Harbor Central Oahu Area. The agreement provides for a contribution of $25,000 each by the City and County of Honolulu and the Economic Planning and Coordination Authority to the Division of Hydrography. The Division in turn includes this money in cooperative offerings to the U. S. Geological Survey. The project was approved by the Survey and matching funds assured which will make a total of $100,000 available over a three-year period for the investigation. Actual work begins July 2, 1956.

Two other small cooperative agreements were entered into by the Division: one with Kilauea Plantation, Kauai, providing the payment of $1,000 per year for the operation of two ditch stations. A second agreement was with Oahu Sugar Company providing the payment of $600 per year for the operation of one station in connection with the Waiahole ditch system.

Amount and source of funds used to support the joint efforts of the Division of Hydrography and the U. S. Geological Survey during the biennium:

T. H. General Fund	$171,512.21
U. S. Geological Survey	171,942.73
Special Contributions	9,468.79
U. S. Engineers	8,313.00
Total	$361,236.73

Plans for the next biennium include the following in addition to investigations regularly required in administration of Territorial water licenses, artesian wells and scientific long-term studies already established:

1. Review and re-evaluation of the stream-gauging system in the Territory and the initiation of adjustments required for more appropriate coverage where the need is indicated.

2. A compilation of records for the period 1909-1950 to be conducted in the Honolulu office by the Geological Survey at no cost to the Territory.
3. The increased study of flood flows and the frequency of their occurrence in connection with the streamflow investigations.
4. Complete and publish Division of Hydrography bulletin on the geology and ground-water resources of Kauai.
5. Initiate the water-resources investigation of the Pearl Harbor Central Oahu Area.
6. Continue preparation of ground-water maps of the islands.

Respectfully submitted,

HOWARD S. LEAK
Chief Hydrographer
